OUTLINE

DCA series is a bayonet coupling connector which utilizes MIL-DTL-5015 insert arrangements and is compatible with VG95234. The inserts are made of the synthetic rubber and can cope with various environments required by the industrial applications. DCA "F" style and "R" style are designed to prevent dust, oil and water from intruding into the connectors.

The DCA series is suitable for applications such as servo motors, machine tools and factory automation equipment.

FEATURES

- ◆ Quick positive bayonet coupling.
- ◆ Audible, tactile and visual indication of full coupling.
- ◆ IP67 when mated and used with suitable accessories, grommet or a waterproof backshell.
- ◆ Contacts available in both crimp and solder terminations,
- ◆ High shock and vibration capabilities.
- ◆ Operating temperature range: -55°C to 125°C with Neoprene insert.
- ◆ Intermateable with existing VG95234 connectors.

AN3420-□□ is an accessory which is designed to tighten the cable.

When you need thinner cable, you can duplicate or triplicate the rubber bushings.
