

0.35mm pitch Board to FPC Connector

FB35S Series

OUTLINE

FD35S series is a 0.35mm pitch board to FPC connector with a stacking height of 0.7mm.

The FB35S is a shorter version of our FB35 series connectors with the width reduced from 2.3mm to 2.1mm.

Each connector has two locking tabs that also serve as power contacts with each having the capability of supporting 4A of current, which can reduce the number of overall connections, the size of your device and the cost associated with reduced board space.

FEATURE

- Stacking height is 0.7mm.
- Pitch 0.35mm
- Available pin counts: 6,12,16
- Reduced board space due to ultra short width of 2.1mm.
- The retention tabs serve as power contacts with up to 4A current available in each of two pins, which allows for more efficient use of the available connection pins.
- The retention tabs of the receptacle connector are assembled by insert molding making a more robust structure to withstand manual assembly.
- Manual assembly improved due to click feel when engaged.

APPLICATIONS

Mobile phone, Wearable devices, PDA, Compact portable devices
